

Fees

Our pricing is determined by the amount of time required to complete your project. We provide estimates for the hours needed, and if we finish sooner, we will adjust the final price accordingly. However, if the work takes longer than the estimated hours, we will charge you based on the maximum time outlined in the estimate.

Please note that we reserve the right to change our pricing anytime, but we will notify you beforehand.

In addition to our fees, any payments to third parties (disbursements) will be charged separately. We will inform you of any significant disbursements, which will be charged at cost.
